

INTRODUCING

Fierce[®]

**THE ONLY SOYBEAN HERBICIDE
THAT OFFERS THE LONGEST LASTING
RESIDUAL CONTROL OF THE WIDEST
SPECTRUM OF WEEDS**

WEED CONTROL CHALLENGE

Remember when glyphosate or other non-residual herbicides were all the weed control it took to grow a great soybean crop? Unfortunately, glyphosate alone just doesn't cut it anymore. Maximizing soybean yield depends on residual control of tough grass and broadleaf weeds.

NUFARM SOLUTION

New Fierce herbicide delivers the broadest spectrum and longest residual weed control available for glyphosate-tolerant, IP and conventional soybeans in Eastern Canada.

FIGHT BACK WITH FIERCE

- **Better performance** than other leading herbicides on tough broadleaf and grass weeds
- **Longer control** with residual activity that lasts up to eight weeks
- **Two active ingredients** (proven Group 14 and new Group 15) for stronger resistance management

REGISTERED CROPS

- Soybeans

WEEDS CONTROLLED

- Common ragweed (including glyphosate resistant)
- Common waterhemp
- Dandelion
- Eastern black nightshade
- Green foxtail
- Green and redroot pigweed (including Group 2 and 5 resistant)
- Hairy nightshade
- Lamb's-quarters (including Group 2 and triazine resistant)
- Large crabgrass
- Palmer amaranth
- Pennsylvania smartweed
- Velvetleaf
- Wild buckwheat
- Wild mustard

BENEFITS OF FIERCE

- Superior agronomic offering controls both grass and broadleaf weeds
- Provides the longest residual for the widest spectrum of weed control
- Contains new Group 15 chemistry (pyroxasulfone) with proven Group 14 chemistry (flumioxazin)
- Two modes of action work on the toughest weeds including nightshade, lamb's-quarters and pigweed species
- Control many weeds showing resistance to common herbicides
- Flexible use rates to fit grower needs – low rate (85 g/ac.) for glyphosate-tolerant systems and high rate (127 g/ac.) for IP and conventional systems
- Tank mixable with most soybean herbicides (i.e. glyphosate and chlorimuron)

FIERCE

- > **Active ingredients:**
Group 15 (pyroxasulfone)
+ Group 14 (flumioxazin)
- > **Rainfast in one hour**
- > **No surfactant required**
- > **85-128 ac./case rate**
(85-127 g/ac.)
- > **Tank mixable with most soybean herbicides**
