DIRECTIONS FOR USE:

Shake well before using. Slight agitation may be required during use.

Dilution Rate	Taux de concentré	Mauvaises herbes supprimées	Surface traitée
1 part product to 5 parts water (200 mL in 1 litre water)	100 mL/m ² (1000 L/ha)	For small and/or easy-to-kill annual weeds such as: dandelion, lamb's-quarters mustards	1L of Finalsan Pro Commercial Concentrate will cover 60 m ² . 166 L of Finalsan Pro Commercial Concentrate for 1 ha
	200 mL/m ² (2000 L/ha)	For perennial or established weeds such as: grass, chickweed, corn spurry, dandelion, groundsel, lamb's-quarters, mouse-eared chickweed, mustards, plantain and round leaved mallow	1L of Finalsan Pro Commercial Concentrate will cover 30 m ² . 332 L of Finalsan Pro Commercial Concentrate for 1 ha
1 partie de produit pour 19 parties d'eau (55 mL dans 1 litre d'eau)	100 mL/m ² (1000 L/ha)	moss and algae	1L of Finalsan Pro Commercial Concentrate treats 200 m ²
	500 mL/m ² (5000 L/ha)	For moss or algae thicker than 2.5 cm	1L of Finalsan Pro Commercial Concentrate treats 40 m ²

FOR WEEDS: Mix one part FINALSAN PRO COMMERCIAL CONCENTRATE with 5 parts water (200 ml in 1 litre of water). Apply the mixed solution at 100-200 ml/m² or 1000-2000 L/ha. For annual weeds, use at the lower rate. For perennial and more established weeds, use at higher rate.

FOR MOSS AND ALGAE: Mix one part FINALSAN PRO COMMERCIAL CONCENTRATE with 19 parts water (55 ml in 1 litre of water). Apply the mixed solution at 100-500 ml/m².

DIRECTIONS FOR USE WEEDS:

Any standard hand-held, backpack sprayer or spray rig can be used. Spray weed thoroughly, using a coarse nozzle setting to reduce drift. Thorough coverage is extremely important. For spot treatment of individual weeds, apply the mixed solution to the center of plant to the point of runoff. When spot treating individual weeds in lawns, avoid spraying surrounding grass (lawn), as injury will occur.

The best results are obtained with young, actively growing weeds, less than 12 cm high. Finalsan Pro Commercial Concentrate works best during warm and dry conditions. Application during cold weather may delay appearance of plant damage. If rain falls within 3 hours of treatment, an additional spray may be required. Plant damage will be visible from a few hours to 2 days after spraying. Repeat treatment every 2 to 3 weeks to control new weeds growing from seed and re-growth from bi-annual and perennial weeds. Avoid spraying desirable plants. Thoroughly clean equipment after use.

DIRECTIONS FOR USE MOSS AND ALGAE:

Spray moss and algae thoroughly as complete coverage is extremely important. Plant damage will be visible from a few hours to 2 days after spraying. One application may control moss for up to one year. Repeat treatment if re-growth occurs. Avoid spraying desirable plants. Do not apply to moss or algae in lawns. Thoroughly clean equipment after use.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Causes eye irritation. **DO NOT** get in eyes. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product. Wear goggles or faceshield (protective eyewear) during mixing/handling of the concentrate.

Apply only when the potential for drift to areas of human habitation or areas of human activity such as houses, cottages, schools, and recreational areas is minimal. Take into consideration wind speed, wind direction, temperature, application equipment, and sprayer settings.

Avoid direct application to ponds, streams and lakes.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. If desirable vegetation is accidentally sprayed immediately rinse with water.

Treated areas may be slippery when wet.

If this pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., visit CropLife Canada's web site at: www.croplife.ca.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

DISPOSAL OF UNUSED, UNWANTED PRODUCT: For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that

PMRA Approved – HS – 2010-1155 – 15-Nov-2011

is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
